"We have lived and been cared for by Children in Distress since we were abandoned as babies by parents too scared to keep or care for us. We only live because of the kindness and care of volunteers and friends in the UK. We are the last of over 450 infants and children with HIV who found life and hope at St Laurence Hospice, Cernavoda.

Now we are helped to normal life by CID's POSITIV⁺ which helps us go to school or college, to learn a trade and gave us a home in town. We lived in Casa James, our little home, but last winter subsidence damaged the cottage and it is

to be demolished. We are now back at St Laurence looking for a new home. Please can you help?"

The team at CID's POSITIV⁺ have twenty years expertise caring for those abandoned and alone helping them step out on their own. We need to rebuild Casa James to give them both the independence and support they need. We need funds to support this building project. Please will you help respond to this crisis for the HIV orphans of Romania? Please donate to this crisis appeal.
